

## "Pittsburgh Perfect" Fence

Save Money on your Fencing by Putting up the Style Made to Meet your Requirements

It's downright foolishness to buy light chicken wire to put around your bull pasture—and you know it.

But some people do it because they don't think beyond the price ticket on the roll of fence—at least not until they've had to patch the chicken wire a dozen times or so where the bull went through.

Then they put up a brand new stock fence.

There's no economy in that kind of fence-buying. The right fence in the first place costs less.

Only the catalogue tells how to buy fence economically, effectively, wisely.

### Annual School Meeting.

The annual school meeting was held Tuesday of this week in accordance with the law. There was one director to be elected to serve for three years and J. C. Parrish was elected to succeed himself. The board composed of J. C. Parrish, U. G. Johnson and S. H. Coulter, met and organized by electing Mr. Parrish chairman and D. F. McConkey clerk.

A levy of 50c on the one hundred dollars valuation was voted, and it was also voted to have ten months school, but as the directors of the school of the Ozarks decided on nine months it is probable that is what we will have. There is some talk of calling a special meeting to increase the tax levy 15c to create a sinking fund and also to vote bonds and build a new school house for the district. The date of such a meeting, if one is to be held, has not yet been decided.

Hull who has been running the store for the past year and a half is undecided as to what he will do, but says he is going to loaf for a month and get a rest.

The Board of Trustees of the School of the Ozarks held a two days session here this week and decided on some improvements for the school. The Board consisting of Dr. W. R. Dobyns and Louis Huggins of St. Joseph, Charles R. Nisbit, of Kansas City and J. W. Hughes of this place met Tuesday and decided that they would take the contract for the district school this year, but would not do so for any future time, as they intend to make this an accredited school, and in order to do so will have to separate it from the district school. They also decided to erect a new residence for the President and to stock the farm with thoroughbred stock. The new residence for the head of the school is to be of the bungalow type and will cost \$2500.

There was an item in one of the city papers this week about a village clerk in some town in Illinois who claimed to hold the record in that state for long service, having been clerk for about twenty-five years and had missed only one meeting of the board. The editor of this paper claims the record in Missouri for the shortest term of service, having been appointed by the county court in January and turned down at the first election thereafter, on the first day of April.

The Ozark Power and Water Co. have installed a passenger boat service on Lake Taneycomo—and, by the way, that name is more appropriate than some people seem to imagine on the first glance, as it takes in all the surrounding country by combining Taney County, Missouri, or at least the first word and the commonly accepted abbreviation of the two latter—and the boat will leave the dam each morning at nine o'clock and connect with the south bound train at Branson at noon. Returning, the boat will leave Branson as soon as the mail is made up, which will give prospective passengers plenty of time to get their dinner and get to the boat. This will help some in the problem of transportation that has been confronting this town, and if we had some way of transporting freight as well we would be still better off.
